

INFORMATION about the WEBSITE:

The statistics shown on the site are very incomplete and represent the results of our research to date, nothing has been included that cannot be supported by written evidence from scorebooks, handbooks, meeting minute notes, newspaper cuttings etc

Most of the evidence, plus photographs and other memorabilia is available for viewing in the Local History Section at the Public Library on Church Drive in Keyworth. Some evidence has been copied from material loaned to us by families.

Research is on-going and new data will be uploaded to the website at the end of each playing season or sooner, if significant.

If you can help us by providing further data, old scorebooks, photographs, press cuttings, we welcome all contributions.
